## **EXAMINER'S AMENDMENT**

### ***Inventorship***

1. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. Non-elected claims 24-26 have been cancelled.

4. The drawings filed on February 20, 2004 are accepted by the Examiner.

### ***Reasons for Allowance***

5. Claims 1-23 are allowed base on the prior arts.

6. The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or render obvious the claimed combination including a compensation datastore of compensation values indexed by pre-compensated throttle area; a compensation vector learning module receiving a throttle area and at least one sensed vehicle

condition, and informing the compensation datastore based on the pre-compensated throttle area and the sensed vehicle condition; pre-compensated and a throttle area compensation module communicating with the compensation datastore, receiving the pre-compensated throttle area, and determining a compensated throttle area based on the pre-compensated throttle area and a corresponding compensation value of the compensation data store.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The copies of U.S. Patent are provided.

Baurele (US 6,698,398 B2).
